-	APPROVAL OF STATE ENGINEER			
	This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a vaive must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued under the provisions of NRS 534:120(2) as a preferred use.			
not t	amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and 0.0312 cubic feet per second, or sufficient to water 1000 head of cattle.			
Actı	nal construction work shall begin on or before			
Proc	of of commencement of work shall be filed before			
	k must be prosecuted with reasonable diligence and be completed on or before. September 9, 1995			
Proc	of of completion of work shall be filed before			
	lication of water to beneficial use shall be made on or before. September 9, 1997			
Proc	of of the application of water to beneficial use shall be filed on or before			
_	in support of proof of beneficial use shall be filed on or before
